- Bachelor of Laws (LL.B.) - 2026

WEST VIRGINIA UNIVERSITY

- B.S. in Petroleum & Natural Gas Engineering - 2011

CERTIFICATIONS

- Artificial Intelligence Essentials (AI|E) (EC-Council, 2026)
- PMP® (PMI, 2018)
- SPE Certified Petroleum Engineer (2015)
- FE (NCEES, 2019)

PROFILE

Dual-qualified professional holding an LL.B. in Law and a B.S. in Petroleum Engineering, backed by 15+ years of upstream operational engineering experience at Saudi Aramco. Certified PMP® and SPE professional seeking a Part-Time Legal Trainee role to complete formal legal training requirements, while delivering specialized Engineering & Technical Advisory support for energy, construction, and contract disputes. Brings high-impact value in assessing engineering claims, investigating operational flat-time/NPT root causes, reviewing technical Scopes of Work (SOW), and analyzing intricate technical evidence to reinforce legal briefs and arbitration submissions.

WORK EXPERIENCE

Saudi Aramco

Drilling Engineer — 2019 - PRESENT

Directed comprehensive well planning and multi-lateral drilling programs, establishing operational KPIs through empirical flat-time analysis. Progressed to oversee vendor technical compliance and equipment verification audits. Currently directing high-level engineering workflows and standard compliance, collaborating with U-ARC on advanced downhole technologies, and conducting variance analyses to mitigate operational and contractual risks.

Drilling Site Supervisor (Foreman / Liaison) — 2011 - 2019

Aramco field authority on active rigs, overseeing daily execution and contractor compliance. Audited daily operational logs, job tickets, and equipment usage to prevent contractual discrepancies. Enforced strict safety standards, led on-site incident investigations, and managed technical field risks.
